SUMMARY

Business Analytics (STEM) and Marketing junior who ran an 18-month distribution business before turning to analytics. Builds Power BI data models and DAX measures, queries in SQL, and delivers data-driven recommendations to client stakeholders through a student consulting practice. Seeking Summer 2027 analyst internships.

EDUCATION

University of Dayton

B.S. Business Analytics (STEM-designated) & Marketing

Dayton, OH

Expected May 2028

Relevant Coursework: Business Analytics, Sales Fundamentals, New Product Development, Managerial Accounting, Legal & Ethical Environment of Business, Marketing Management

EXPERIENCE

Owner & Operator

Brahmani Trading & Sanitary

Gujarat, India

Mar 2022 – Aug 2024

- Operated a building-materials distribution business end to end for 18 months, moving 175–200 tons of cement monthly while managing \$2,000–2,500 in daily cash flow.
- Grew the customer base by building direct contractor relationships and running targeted promotions, converting one-time buyers into repeat accounts.
- Owned inventory planning, supplier negotiation, and the P&L, driving process improvements that kept stock aligned to demand without tying up working capital.

Consultant

Flyer Consulting, University of Dayton

Dayton, OH

2025 – Present

- Deliver pro bono strategy and analysis to nonprofit clients as part of a student-led consulting practice, scoping problems directly with client leadership.
- Translate client data into data-driven recommendations and present findings to stakeholders, working cross-functionally across engagement teams.

Facilities Operations

University of Dayton Campus Recreation

Dayton, OH

2024 – Present

- Coordinate daily facility operations cross-functionally across 4–5 campus departments; trained in safety & security and AED/CPR Pro certified (American Red Cross).

ANALYTICS PROJECTS

Adventure Works Executive Analytics Suite

Power BI, DAX, Data Modeling

github.com/yuvraj04prajapati

- Built an end-to-end business intelligence solution over \$24.9M in revenue and 25,164 orders, designing a 9-table star schema across two fact tables and seven dimensions.
- Wrote 42 DAX measures and delivered 3 interactive dashboards featuring self-recalculating monthly targets, customer drill-through, and a what-if price simulator that re-forecasts revenue and profit in real time.

NYC Traffic Safety Analysis

Excel, PivotTables, Time Series

- Analyzed 238,000+ NYPD collision records across 18 fields to surface seasonal and hourly crash patterns, finding that the most frequent contributing factor is not the most lethal one — a distinction that changes where intervention resources should go.

Restaurant Order Analysis

SQL, MySQL

- Queried a full quarter of order history across joined order and menu tables to rank menu performance, isolate peak demand periods, and identify the customers driving a disproportionate share of revenue.

SKILLS & CERTIFICATIONS

Analytics & BI: Power BI, DAX, data modeling, star schema design, dashboard development, KPI design, data visualization, reporting

Data & Technical: SQL, MySQL, Excel (PivotTables, VLOOKUP, Data Analysis ToolPak, regression), AWS (S3, Athena), data cleaning
